Annex. Reporting instrument and accompanying instructions	119

Explanatory note

Figures in the tables presented below have been reported by participating States on the basis of the standard instrument for international reporting of military expenditures. For analytical purposes, the information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

The replies from States are available at the Department for Disarmament Affairs, United Nations Headquarters.

I. INTRODUCTION

1. On 12 December 1985, the General Assembly adopted resolution 40/91 B, in which, inter alia, it reiterated its recommendation that all Member States should report annually, by 30 April, to the Secretary-General, using the reporting instrument (see annex), their military expenditures for the latest fiscal year for which data are available. By paragraph 8 of that resolution, the Assembly once again stressed the need to increase the number of reporting States with a view to the broadest possible participation from different geographic regions and representing different budgeting systems.

2. Pursuant to the request of the General Assembly, the Secretary-General, in a note verbale dated 25 January 1991, requested all Member States to submit their reports not later than 30 April 1991.

3. In reply to his note verbale, the Secretary-General has, to date, received reports from 22 countries, all of which had used the reporting instrument. These reports are reproduced in section II of the present report. Further replies will be issued as addenda to the present report.

II. REPLIES RECEIVED FROM GOVERNMENTS

ARGENTINA

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: no conscripts.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: no military assistance was received from overseas.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: no information.

Sales from the military sector of:

(a) Land
(b) Real estate other than land
(c) Equipment
(d) Services
(e) Other

no information.

/...

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector		X
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions		X

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

BULGARIA*

[Original: Russian]

[6 June 1991]

Instrument for standardized international reporting of military expenditures

(Actual outlays, current prices)

Country: Bulgaria

Fiscal year: 1 January to 31 December 1989
and 1 January to 31 December 1990

National currency and unit of measure: Lev (hundreds of thousands)

(The unit of measure should not exceed one ten thousandth of the total military expenditures)

---

* On p. 17 of document A/INF/45/5 of 18 October 1990, data for 1988 were mistakenly referred to as data for 1989. Furthermore, the decimal point that should have been placed before the last digit of all figures in the 1988 data was inadvertently omitted.

Fiscal year: 1 January to 31 December 1989

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: not applicable.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: nil.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: $140 million per annum.

Sales from the military sector of:

(a)	Land	sales from military are negligible.
(b)	Real estate other than land	
(c)	Equipment	
(d)	Services	
(e)	Other	

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector	X	
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

/...

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: 3,137 koruny.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: 134,388.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: no military assistance was received from abroad in 1990.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: 331 million koruny.

Sales from the military sector of:

(a) Land

(b) Real estate other than land

(c) Equipment

(d) Services

(e) Other

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector		X
Exports of military equipment		
Such exports divided by:		
(i) Countries	X	
(ii) Regions	X	
Imports of military equipment		
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Notes

1.1 Personnel

Excludes service pensions.

1.2.1 Materials for current use

This item includes petrol, oil and lubrication, communal messing and procurement of replacement clothing, medicines and bandages.

1.2.3 Purchased services

This item includes postage, cargo and transport costs, telecommunication charges and general clerical expenses.

Under the federal armed forces accounting system, travel expenses are staff costs and are included in items 1.1.1 to 1.1.3.

Division of these figures into their component parts would require considerable time and resources.

1.2.4 Rent costs

With the exception of column 14, rents for immovable property are included in the maintenance and repair costs for immovable property under item 1.2.2.

2.1.2 Missiles

Expenditure on missiles is included under item 2.1.1.

2.1.6 Artillery / 2.1.7 Other ordnance

Separate figures for artillery and other ordnance cannot be given. The total is under item 2.1.6.

Column 14 (Civil defence)

The total at the bottom of the table (DM 747.2 million) is the expenditure for civil defence in the narrower sense of the term. The total picture would have to include the following:

DM 747.2 million	as specified in the table;
DM 3 000 million	(estimate) carried by Länder (federal states), communities and communal entities for civil emergency planning, fire protection, ambulance services etc. for the benefit of civil defence;
DM 103.7 million	in federal payments for civil defence-related tasks.
DM 3 850.9 million	total

a/ Military service is completely voluntary.

b/ Included in row 1.2.1.

c/ Included in row 1.2.2.

d/ Included in rows 2.2.7, 2.2.8 and 2.2.9.

e/ This total comprises the land forces, including the security forces. Columns 1, 3-10 and 12 do not apply in Luxembourg.

f/ Civil defence expenditure in the Grand-Duchy is designed mainly to protect civilians against peacetime accidents or disasters.

.../

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: not applicable.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: not applicable.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a) Land
(b) Real estate other than land
(c) Equipment
(d) Services
(e) Other

none.

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

Statistics are readily available. Luxembourg does not export arms.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector		
Exports of military equipment		
Such exports divided by:		
(i) Countries		
(ii) Regions		
Imports of military equipment		
Such imports divided by:		
(i) Countries		
(ii) Regions		

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Not applicable.

ADDITIONAL NOTES

GENERAL REMARKS

Brief outline of the armed forces of Malta

1. The Armed Forces of Malta consist of approximately 1,500 all ranks who are regulars. There are no conscripts. The Forces include a Maritime Unit and a Helicopter Unit in addition to the majority of personnel who are committed to a variety of land activities common to most armies, but on a much reduced scale. Comand and control of all Forces is exercised by a Headquarters and staff. The small civilian element in the Forces is engaged either in administrative duties or in mainly civilian trades.

REPORTING INSTRUMENT

Explanatory notes

2. Short notes on the data requested in the reporting instrument should assist in assessing Malta's military expenditure. Both Part I and Part II, where applicable, have been answered.

3. Because of the size and limitations of the Armed Forces of Malta most of the information requested in the subcategories of the Matrix is not applicable.

4. However, where answers have been inserted, the following additional information is given:

1.1 Personnel

The amount of LM 5,102,900 covers all military and civilian personnel and expenditures include:

(a) Pay;

(b) Social security contributions;

(c) Yearly bonus;

(d) Allowance.

The civilian element in the Armed Forces of Malta comprises only LM 158,300 of the total personnel expenditure of LM 5,102,900.

1.2 Operations and maintenance

Operations and maintenance expenditure for the Maritime Unit and Helicopter Unit have been given separately, i.e. LM 128,600 and LM 135,700 respectively.

1.2.1, 1.2.2, 1.2.5

The amounts of LM 232,000, LM 459,400 and LM 4,700 under "Operations and maintenance" covers expenditure for the remainder of the Forces.

2.1 Procurement

The amount of LM 111,000 represents purchase of vehicles.

2.1.8 Ammunition

The amount of LM 44,800 represents expenditure on ammunition for all the Forces.

2.2.8 Warehouses, depots, etc.

The amount of LM 151,100 represents expenditure in rent paid for land and buildings occupied or used by the Armed Forces of Malta throughout the island.

2.2.13

The amount of LM 15,000 represents incidental expenses not covered by the subcategories.

Military assistance

The amount of LM 44,600 under column 10 against "Operating costs" represents the cost for courses of instruction outside Malta made available to all ranks of the Armed Forces of Malta by foreign armies.

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: not applicable.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: LM 44,600.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: negligible.

Sales from the military sector of:

(a) Land)
(b) Real estate other than land)
(c) Equipment) none.
(d) Services)
(e) Other)

4. Respondents are requested to submit information as to whether statistics of the following kinds would ~~be readily~~ available for the reporting year.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector		X
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment		X
Such imports divided by:		
(i) Countries		X
(ii) Regions		X

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

NETHERLANDS

Notes

1.1.2. Military pensions are included in the total under column 6 ("Support") in the amount of 1,370,000 thousands of guilders, as a "surrogate" for pension fees.

1.2.2. Major overhauls and modifications are included in the appropriate "procurement" items.

1.2.4. Rent costs are not available.

2.2. The specification asked is not available.

3 For technical reasons, most of the amounts for research and development are included in the appropriate "procurement" items.

8. The Netherlands Royal "Marechaussee" (charged with external as well as internal security tasks) is represented under column 5 ("Other combat forces"). Additional expenditures concerning the "Marechaussee" forces are included in the figures presented under 2, 3 and 4.

9. Figures concerning "Civil defence" are included in the Netherlands reply. It is stressed that these figures originate from the budgets of several Ministries.

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: 23,600 guilders a year.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: 49,522 guilders.

2. With reference to point (d) of the specific guidelines above (see annex), respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: none.

3. With reference to points (n) and (o) above (see annex), the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a)	Land	)
		)
(b)	Real estate other than land	)
		)
(c)	Equipment	) 106,100,000 guilders.
		)
(d)	Services	)
		)
(e)	Other	)

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	Not available
Price index of specific relevance to the military sector	X	
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.
